

The next KDH event...

May 10th 2008, 11am to 4pm

Varsity Softball Game

The Strongsville High School Softball Team

Coach Jeanette Howard (Mirifex)

Cleveland, Ohio

We are happy to announce the next KDH Hodgkins Disease Fundraiser in May 2008, in Cleveland, Ohio. The event will be a Varsity Softball Game, at the High School, filled with fun, food and refreshments!

This softball game has particular meaning because Jeanette was diagnosed with Hodgkins Disease Stage 2A, several months ago at age 25. She's currently undergoing the standard treatment of ABVD Chemotherapy and is in cycle 2. Dr. Mendpara is her treating physician at Ireland Cancer Center at Southwest General Hospital. Jeanette continues to coach and with her positive attitude also continues with her everyday life. She is a brave and truly positive inspiration for all of her players and the Strongsville community.

100% of the donations from the Strongsville H.S. Softball Team Fundraiser will go to the KDH Hodgkins Disease Foundation, which will then be donated to Dr. Andrew D. Zelenetz, M.D., Ph.D, Chief of the Lymphoma Service in the Division of Hematology/Oncology, Department of Medicine at Memorial Sloan-Kettering Cancer Center, for Hodgkins Disease Clinical Trials.
